

# ALGEBRA SEMINAR

## Examples of simple linear representations of categories.

By

**Serge Bouc**

(University of Picardie Jules Verne)

**Abstract:** After recalling general facts on simple linear representations of categories, I will illustrate by some examples situations where we know how to compute explicitly these simple representations, and some others where we (still?) don't.

**Date:** Wednesday, May 29, 2024

**Time:** 13:30

**Place:** SA141 - Mathematics Seminar Room
